GREAT OFFER.

THE

Winnipeg Weekly Sun

FROM NOW

To January 1st, 1885, for \$1 50.

PAYABLE IN ADVANCE.

Weekly Sun and Weekly
Globe or Mail, \$2 25
per annum.

CHIT-CHAT LOCALS.

Gathered by our Reporters.

Miscellaneous.

Court meets to-morrow.

Chickens and ducks are getting scarce.

Still one more hair mattress at Charlie Hamilton's.

The angels round this District are frozen over.

The new Methodist Church will soon be ready for service.

The Indians held a big dance back of the town last Sunday.

Canon Flett preached in the Bishop's Church last Sunday evening.

Who put the backboard on top of the woodpile last Thursday evening?

A fine stock of winter clothing to be seen at Walters & Baker's, at rock bottom prices.

Messrs. Wymerkirch & Burke have dissolved partnership. Mr. Burke will carry on the business.

Charlie Hamilton's expecting daily a large supply of steel cutlery, such as chairs, cane seat chairs, lounges, etc., etc.

Personal.

Rev. John McKay arrived in town last week.

Mrs. H. Korman will leave for High Bluff this week.

Mr. James McIntosh will leave for Moose Jaw on Thursday.

Mrs. H. E. Hurd will leave for the East this week. Mr. Hurd will accompany her as far as Winnipeg.

Capt. J. M. Smith arrived in town this week from Fort Chipewyan, where he has been building a vessel for the H. B. Co.

Before purchasing your winter underclothing see Walters & Baker's complete assortment at their new stand, Tait and Campbell's block.

The New Magistrate.

We understand that letters were received by last mail announcing that Mr. Roddick, a French Canadian and for some time a temporary magistrate at Aylmer, a village in the Province of Quebec, about ten miles from Ottawa, had been appointed Magistrate for this Judicial District. No official intimation, however, has yet been received as to whether the new Judge will hold the Court which is announced to be held on Thursday, 26th inst., or whether Judge Richardson will be here to finish up the old business.

St. Andrew's Society.

On Saturday evening last a meeting was held of those desirous of forming a St. Andrew's Society in this District. The meeting was well attended and passed rules and by-laws, and the annual subscription was fixed at the sum of \$5.

The following officers were then elected for the coming year:—Mr. John Stewart president; Mr. Thos. McKay 1st vice-president; Mr. Geo. Miller 2nd vice-president; Mr. Wm. Napier secretary; and Mr. Jas. MacArthur treasurer. A general committee was then formed of the following gentlemen:—Messrs T. N. Campbell, J. Knowles, Col. Sprunt, Rev. John B. Dunlop, J. Nelson, J. MacIntosh, J. Finlayson, and W. Miller. After discussion it was put to the meeting in what manner St. Andrew's Day should be celebrated, and as a vote being taken it was carried to commemorate the formation of the Society by a banquet. A committee of five was then elected to carry out the arrangements as follows:—Col. Sprunt, T. N. Campbell, J. Knowles, President and Secretary.

Prince Albert Curling and Skating Club.

We are requested to state that a meeting of the Directors of this Company will be held at McLean & Elliot's office, on Friday evening next at 7:30 o'clock.

Settlers' Union.

The committee appointed to frame the constitution and by-laws of the Settlers' Union, will meet on Friday afternoon at 3 o'clock at the office of the secretary, Mr. Fitz Cochran, at the town's building.

Residents from the outlying settlements are invited to attend.

Recreation Rooms.

Remember the adjourned meeting of the Young Men's Literary and Athletic Club, at Flett's building on Saturday evening, 27th inst., at 7:30 o'clock, to receive report of committee on by-laws, etc.

Young men wishing to join the club, and it is to be hoped that every young man in town will avail himself of this opportunity, are invited to attend. A subscription list is open at T. N. Campbell's. Donations in money, books, periodicals and papers are requested.

The Press.

The Fort McLeod Gazette comes in this week in enlarged form and new and handsome design. We congratulate our enterprising contemporary on its upstart, and hope that large additional patronage may reward its labors in the cause of Western Journalism. We notice that its editor and proprietor have taken to himself a better half the other day and with the way will have bettered his life and happiness.

The Weekly Mail.

We are informed by Mr. McLean's (the former contractor) agents here that he has sold out his mail outfit and that the new contractor, A. M. Elliott, takes possession of the line on Nov. 1st.

The public have every reason to be satisfied with the way the mail has heretofore been carried, and we trust the new contractor will do as well. Mr. McLean took the mail when the country was a wilderness and the starting point Winnipeg, which is quite a fact considering that he has carried it since the time he had it in charge. Since the weekly mail was started it has never failed to be on time, which is quite a fact considering that we are still three hundred miles from the railroad.

Sporting Extraneous.

We understand that a gentleman who has recently returned from a hunting expedition to the Rockies made some great shooting across the River the other day.

He caught a black sheep on the river bank, which his vivid imagination, stimulated by the exciting adventures he had gone through in the Mountains, might feel into a bear or a mountain goat. Taking a steady aim he fired from the opposite shore and something tumbled into the river, but whether it was a part of the bank or an inoffensive Aborigine has not yet been ascertained. We have not heard of any of the tribe being missing, but if the morning relative may find in this paragraph a clue to his disappearance.

An Agricultural Monstrous.

A gentleman residing in the East end, came across one of those curious anomalies in the vegetable kingdom the other day which sometimes occurs, in the shape of an almost perfect resemblance to the figure and different parts of the human body. This he sent down by a friend who was going East to another friend of the noble persuasion in an eastern city, for private exhibition only. This friend, the carrier, is rather an absent minded individual and he forgot for whom it was intended, but meeting the wife of the owner in the street one day, the brilliant old chuck him that it was meant for her, and so he informed her of it, and promised to send it to her from his hotel. Of course the lady was delighted at this mark of attention and thoughtfulness on the part of her absent spouse, and indulged in pleasing anticipations of the promised present. Imagining her at receiving adored carrot and imagine what is in store for that unucky husband when they meet. But imagination fails to grasp the horrors of the situation. Let us hope that time, which mellows all things, even a carrot may soften the bitter feelings of that injured wife, before these two meet again.

The Mail Contract.

Mr. Robt. Elliott, the new mail contractor, will commence his duties on Nov. 1st. The mail will arrive on Monday and leave on Tuesday at noon.

The Settlers' Union.

We understand that at a meeting of the Committee appointed at the Mass meeting to form a Settlers' Rights Association, it was decided to hold meetings in the outlying Districts so as to secure the co-operation of all the inhabitants of the District of Leane. Arrangements are being made to hold meetings at various places of which due notice will be given. Leading men in the different settlements are requested to give their aid and support to the movement, so as to form a strong and successful organization. Correspondence will also be opened with kindred associations in other parts of the Territories.

Recreation Rooms.

A meeting of those interested in the establishment of recreation rooms for young men was held on Friday evening last, at Mr. Flett's hall, Mr. James MacArthur was appointed chairman, and Mr. Fitz Cochran secretary.

The chairman stated the objects of the meeting and called upon Rev. Mr. McWilliam who spoke in favor of the movement and suggested that something like a Model Institute be formed. Hon. Laurence Clarke and Col. Sprunt also warmly approved of the project and announced their desire and intention to assist in every possible way in carrying out the objects contemplated. The following committee was then appointed to take charge of the matter, to make enquiries as regards the probable expense for rent of rooms, etc.: Messrs. Fitz Cochran, Joseph Knowles, Rev. St. Johnstone, James MacArthur, W. R. Gunn; to report at an adjourned meeting to be held on Tuesday evening, 27th inst., at same time and place. A subscription list was then opened and \$150 subscribed on the spot, which was led by the chairman and a list of \$100 from Hon. Laurence Clarke. The meeting then adjourned until Tuesday evening. With this promising commencement there is every prospect of the project being successfully carried out. The committee will be glad to receive donations of money, books, magazines and papers for the Reading Room.

The Tel. graph.

The holes have been dug and the poles laid down ready for putting up all along the line from Clarke's crossing into Prince Albert and the brackets for the insulators affixed. We understand that the wire is distributed along the line and will be strung immediately, and that the branch line into this town will be fully equipped and in working order about a month. We understand that a letter was received by this mail from Mr. Gushorne, the Government Superintendent, stating that they had decided not to buy a site for the office, but he would send down a competent surveyor to select a site, of about 50,000 sq. ft. He requested that a public meeting be called at once so that the people could have an opportunity of deciding who should give the free lot. Don't all speak at once gentlemen! Let us hope that some public spirited citizen will give a lot in some central and convenient location. In regard to the selection of a site for the office we would remind our readers that at a public meeting held in Prince Albert on the 12th of June last, a resolution was passed on motion of Col. Sprunt, seconded by Mr. Wm. Stewart, that the office should be located either on river, 77 or 78, which crosses either on Harold Clarke or the Mission property, the idea being to have it in some central and convenient spot. As the reason for building is getting rather advanced, we do not see the necessity for erecting a building this fall. A room or rooms could easily be procured in some central place for the winter, and in fact we are authorized to state that a gentleman is prepared to offer the free use of a building for that purpose for the winter, in a central situation. No time should be lost in having the matter settled and if there is to be a public meeting let those who have the matter in charge call at once.

Recreation Rooms.

THE PRINCE ALBERT TIMES

WEDNESDAY, OCTOBER 24, 1883

THE NORTH WEST COUNCIL.

The proceedings of this august body closed, we believe, on the 4th inst., after a session of between six and seven weeks. What work they accomplished in that long space of time, or whether anything of real benefit to these Territories has been done we have little means of judging, owing to the exceedingly meagre reports of the proceedings published in the *Regina Leader*, the supposed, or rather self-constituted organ of the Government, or to speak more correctly, of Lieutenant Governor Dewdney. It appears to be the opinion of that functionary that the North West Government is too poor to pay for publishing the ordinances passed by the Council or the bills submitted to them during the session. This is cheese paring with a vengeance. Surely, as some little return for what we pay into the Dominion Treasury, we ought to be entitled to a small grant for legitimate legislative expenses. As the N. W. Council is at present (not for long we hope) the only partially representative body we have, we in the far west think we have a right to be informed of their doings and of the laws they pass. The least that could be done would be to publish the ordinances and bills submitted in all the papers published in the Territories. All we have seen printed so far, is a list of their titles, from which no information whatever can be obtained. The last number of the *Leader* contains a list of some twenty ordinances which have been passed on almost every subject, from municipalities down to "Thistles and other noxious weeds," but beyond this we are left in the dark as to the nature of the laws we are supposed to obey. In what shape the important question of Municipal Incorporation was left we are completely ignorant.

As regards the present composition of the North West Council, we must confess that it partakes largely of the nature of a farce. With six elected members and six nominated by the Government it is certainly a mongrel institution, and the sooner it is abolished altogether the better, and a properly elected House of Representatives, responsible to the people established. Not only has the Lieutenant Governor the casting vote, but he has a double vote, so that with the aid of the nominated members, who certainly stuck together like wax during the last session, he has the power to outvote the representative members on any question—and he did so in several instances. In this way the nominees of the Crown who are responsible to nobody can control the whole legislation of the Territories, and the representatives of the people are powerless to do anything. It is about time that this farcical institution which at present does duty for a Legislature was swept out of existence and representative institutions established, as they exist in other portions of the Dominion.

THE MASS MEETING.

The public meeting of the inhabitants of Prince Albert and vicinity which was held on Tuesday, 18th inst., for the purpose of establishing a Settlers' Rights Association of the Dominion was largely attended and was fully representative of the Indian, white and bone and sinew of the settlement. It is to be regretted that some of the older settlers were not present, men who have the greatest stake in the community and who are perfectly well convinced of

the necessity for some such organization in order to secure our rights and obtain a redress of our admitted and acknowledged wrongs and grievances. These men should have been there, and by their presence given countenance to the movement. Perhaps before long they may have cause to regret their apathy or it may be their timidity—for some may have been deterred from being present from a fear of countenancing something of a rebellious or seditious character. If they had been at the meeting they would have found out their mistake, as one of the speakers very appropriately remarked the object of the organization was not to encourage rebellion, but to prevent it. The language of the resolutions passed and the tone of the speakers was temperate, but firm and independent, and the attitude assumed by those who took a prominent part in the proceedings was that of men who were chafing under great injustice, but who were determined to exhaust all legitimate and peaceful modes of redress before resorting to other means of obtaining their demands. It is sincerely to be hoped that the Premier of the Dominion, to whom the proceedings of the meeting will be forwarded, will be alive to the gravity of the situation and will be convinced of the necessity for immediate action to allay the rapidly growing feeling of discontent which unhappily prevails in these Territories. We are convinced that if he could have visited the North West during the last summer and seen for himself the mischievous operations of the present land policy, that no time would have been allowed to pass before remedies would have been applied and some of the most oppressive portions of the system at all events have been removed. We understand that the committee who were appointed at the public meeting to carry out the resolutions which were passed have determined to issue circulars to leading men in the outlying settlements asking them to call public meetings in their localities so that all the inhabitants of the District of Lorne may unite in the organization and become members of it. At these meetings, due notice of which will be given, one or more of the members from town will be present to speak and explain the objects of the association. The secretary will also correspond with the Settlers' Rights Association which was formed at Qu'Appelle some months ago, and with other kindred organizations in different parts of the Territory with a view to unity of action in carrying out the objects of the Association. It is proposed, also, we understand, to endeavor to have one or more delegates appointed from the different Territories of the North West, who would proceed to Ottawa during the next session of the Dominion Parliament and personally urge upon the members of the Government and Senate and Commons the claims of these Territories for consideration and redress. There is no doubt that much good would come of this course, as witness what was accomplished last winter by the delegation from Edmonton and St. Albert. They obtained all they asked for, and a little more—whilst Prince Albert was contented to sit idly by and send a memorial and were left out in the cold for their pains. In the meantime, organize, organize, organize—and be ready for any emergency.

J. M. Campbell's carts arrived in last week, with a large outfit consisting of dry goods, groceries, clothing, boots and shoes, tin-ware, stoves, etc. Read advertisement in another column.

INDIAN SCHOOLS.

Our Indians in the North West Territories have just cause of complaint with the Government for the non-fulfilment of that part of the Treaties in which the Government agrees to provide schools for the education of the Indian children. In some places the clause is entirely ignored, in others a small salary is offered for a teacher, but this salary, \$300 per annum, is so small that no teacher can be found willing to undertake the work. In a few of the reserves the salary is supplemented by one or other of the various missionary societies who devote their attention to the training of Indian children, and in such cases a teacher is sometimes secured. But the educational interests of a very large number of the reserves are entirely uncared for. In this connection we would again call attention to the exceedingly large outlay of public money being made in aid of the denominational schools, under the title of industrial schools, by the Government. With industrial schools we have no fault to find, but we contend that the system should either be made sufficiently comprehensive to provide for the education of the whole of the Indian youth, or schools of some kind should be established for the benefit of those not thus provided for.

NOTICE

Is hereby given that the South Saskatchewan Valley Railway Company will apply to the Parliament of Canada at its next session for an Act to extend the time for the commencement and completion of the works of construction upon their Railway, and to otherwise amend their Act of Incorporation.

MANITOBA NORTHWESTERN

Description of Country Traversed by the Road, Obtained from Mr. Duncan McArthur, Advantages Posed at Prince Albert Town Site—Progress in the work of construction.

Mr. Duncan McArthur, who, it will be remembered, started about a month ago on a trip across the country to Prince Albert, returned to the city the afternoon of last week. Mr. McArthur, who is vice-president of the Manitoba & North-western Railway, took the trip with a view of seeing the land through which the line will pass, in order that he might intelligently all matters relating to the land which might come up in connection with the railway. Another object that he had in view was to select a crossing over the South Saskatchewan. Mr. McArthur went over the C.P.R. to the Red River, which he inspected. He was much pleased with the arrangements. Leaving Qu'Appelle he proceeded to Weyburn, where he found a special stage from Mr. McKean, an old Winnipegger, to take him through. He then proceeded north-west, crossing the Qu'Appelle at O'Brien, and from there proceeded to Teasdale Hills, and the following day reached Salt Plains. Another day brought him to Humboldt, on the South Saskatchewan, where he camped. He reached Lusk Lake on Friday, and on the following day he reached Prince Albert from Winnipeg in 24 miles, which Mr. McArthur accomplished in eight days.

PRINCE ALBERT.

Asked his opinion of Prince Albert, Mr. McArthur said:

"It is by all odds the finest town site in the entire North West, and I have no hesitation in saying that it will yet become one of the great commercial centres of the North West. It is located in the finest part of the North West I have seen. It is located on the south shore of the North Saskatchewan, the banks of which are about 25 feet high, so that the best sanitary system procurable could be carried out there. The town is situated on a flat running from a mile higher ground to the south. Between that portion is a beautiful tract of land, which is a beauty. This place is exactly suited for private residences. Across the river is a fine expanse of forest which contains sufficient timber suitable for fuel, to last for an indefinite period. The town did not seem to comprehend the importance of Prince Albert. Geographically it has an important position. It is the natural centre of a great railway system. At that point will cross the Hudson Bay line, the Peace River line and the Manitoba and Northwestern line. It is bound to become one of the largest centres of this noble west. The settlement at that vicinity extends five miles, and contains about 5,000 people."

DESCRIPTION OF THE COUNTRY.

"What are your impressions about the country over which you travelled, Mr. McArthur?"

"Without any doubt I deem that country the finest land in the whole North West. With the exception of the Salt Plains, which is about thirty miles across, there is not a single acre of bad land. The country about Humboldt, Teasdale Hills, Qu'Appelle and Round Bay is exceedingly fine. In fact it is magnificent, and had I not seen it I could not have believed it. The soil is a fine black mould with a light clay subsoil. The country is rolling and there are innumerable ponds and islands covered with poplar. All the points seem to give the country a very pretty look like a park. All through the country can be found plenty of timber for settlement purposes. There is a great deal of young growing timber, which will be good in the future. Referring to the soil again, I might say that I noticed it all the way from Qu'Appelle to the north branch of the Saskatchewan. The soil is some of the best and best, and the men who dig to sink telegraph poles, served to show me the quality of the soil. The country between the two rivers and extending down to the forks, which is about 33 miles, is the best farming land I have ever seen. It is capital land for mixed farming. The land is very fertile and easily worked. It is just fourteen miles across from the South Saskatchewan to Prince Albert."

"Did you find a good water supply?"

"Oh, yes, indeed. It is a wonder to select from them and they are all very good. I can not tell you yet which one will be selected. It may all depend on circumstances."

We found one very suitable crossing on the South Branch, 14 miles from Prince Albert."

"Is there much land under cultivation there?"

"I was greatly astonished at the vast amount under cultivation, and the settlers are all delighted with the country and prospects."

"Did the frost do any injury?"

"Very little. As you know, there was frost all over Canada and throughout the Northwestern States, and near Prince Albert the same frost affected to a small extent some of the crops. I might tell you that the crops there were most abundant this year."

"Are prices high at Prince Albert?"

"Yes, pretty high. But there is worth 40 cents per pound, eggs 40 cents a dozen and other articles accordingly. Prices, however, must soon come down, as there is such an opening for competition. The country is prosperous and contented, and is anxiously looking forward to the coming of the railway. I met a great many people here, and many have gone from the Red River valley to settle there."

"How do you think immigration will tend to the future?"

"Largely up the country past Minnedosa, up St. Louis River, Teasdale Hills, and towards Prince Albert. The natural beauties and advantages of the country will compel it to go that way."

"What policy will your company adopt to encourage settlement?"

"The intention of the company is to push the line well on into the land grant next year. Basing based on the land grant, which will be issued, and then the land will be thrown open for immediate settlement on excellent terms, and I may add without reserve. Every possible advantage will be afforded to the actual settler. I may mention that the land grant amounts to 3,000,000 acres altogether."

"How is the work of construction progressing?"

"Very well indeed; the track is being laid at the rate of a mile a day. The first section, between from Teasdale Hills to Minnedosa, will be ready for opening by the first of next month."

RAISING ANOTHER BOOM!

Hudson's Bay Railway Bonus Scheme.
A Big Thing for Winnipeg.

There is a scheme on foot at present which, if carried out, will probably raise another big boom in this city. The scheme is to have the Winnipeg and Hudson Bay Railway Company locate their terminus here, on condition that the city council vote a large bonus to them. It is proposed to go ahead with the railroad as soon as possible, and if that is done there can be no doubt it will be a great thing for Winnipeg. Thinking that this was perhaps a foundation, less rumor, a *Sun* reporter called upon Ald. Wilson, chairman of the finance committee of the city council to ascertain the truth of it.

"The report is perfectly true," answered Ald. Wilson, in reply to a question from the reporter, "although it is a little premature as yet."

"Do you think the company will go ahead with the railroad?"

"I am sure they will if Winnipeg and other places give them sufficient encouragement in the shape of bonuses."

"The railway would go ahead, would it not, even if the council refuses to bonus it?"

"Oh, yes; but we are anxious to have the railroad running into Winnipeg, and it will not do so by many miles if a bonus is not granted."

"Is it proposed to go on with the railroad at once?"

"I believe it is."

"Do you think the council will grant the bonus?"

"It will, of course, have to be submitted to the people, who will, I am sure see what a big thing it will be for this city and vote for it. It will be one of the best bonuses ever granted, and the road going on will raise the value of real estate here and create a second C. P. R. boom."

"What will the amount of the bonus be?"

"I think the company want about \$250,000. It would pay the city to grant double that amount if necessary."

Ald. Fortune being called upon by the reporter, said that he thought the building of the railway would greatly benefit Winnipeg, and raise a second boom. He was sure that such a railroad running into Winnipeg would be a great thing, and if the people were alive to their interests they would vote any bonus asked.

Several other prominent gentlemen, who were interviewed on the subject, expressed themselves as greatly pleased with the scheme, and much in favor of it. A good many of them had been afraid that the C. P. R., which has just purchased the Northwestern, would also try to get control of this road and thus monopolize the whole country. They hoped the bonus would be granted and the road gone on with. This seems to be the unanimous opinion of our citizens.

PRESBYTERIAN MISSIONS.

Proceedings of the Home Mission Committee.

Toronto, Oct. 12.—The Presbyterian Home Mission Committee has resolved to supplement the salaries of Ministers doing duty in Manitoba, to the amount of \$650, and they will participate in a surplus, providing the amount does not exceed \$200. Where there is a money deficit will be deducted from the above amount. This is not to apply to reduce the salaries of ministers already induced. Rev. J. Sievering, Prince Albert, gave a report of the progress of his mission. The announcement that four churches were building in that field, out of debt, was received with applause. He strongly urged the formation of a Presbytery of the Saskatchewan.

The complete returns from Algoma give Lyon a majority of 145. His majority on Manitowish Island was 250.

Mr. Fred Baker, of Walters & Baker, has just returned from the East with a complete line of general goods, personally selected by him in the Ontario markets. Call and see.

Quarter master Sergeant A. Warden, of D troop, North West Mounted Police, arrived in Winnipeg on Oct. 30, from Battleford, en route to Bander, Scotland.

The two brothers who were on trial for the murder of John McCarthy at Qu'Appelle, have been found guilty and sentenced to be hung on the 28th of November.

GOVERNMENT HOUSE,
Ottawa, 16th July, 1881.

His Excellency the Governor General in Council.

On the recommendation of the Honorable the Acting Superintendent General of Indian Affairs, and under the provisions of the first section of the Act passed in the session of the Parliament of Canada held in the 41st year of Her Majesty's reign, intimated heretofore, and intimated "An Act to amend the Indian Act, 1880."

His Excellency, by and with the consent of the Council for Lands, has been pleased to order, and it is hereby ordered, that the following regulations be and the same are hereby made and adopted:

No band, or irregular band of Indians, or no Indian of any band or irregular band in the North West Territories may, without the consent in writing of the Indian Agent for the locality, sell, barter, exchange, or give to any person or persons whatsoever, any grain or root crops, or any other produce grown on any reserve in the North West Territories, or any part of such reserve; and any such sale, barter, exchange, or gift shall be absolutely null and void unless the same be made in accordance with the provisions and regulations hereby prescribed; and any such grain or root crops or other produce so sold, bartered, exchanged, or given to any person or persons shall be liable to be seized and taken possession of by any person acting under the authority, either general or special, of the Superintendent General of Indian Affairs, and to be dealt with as the Superintendent General, or any officer or person authorized by him, may direct.

J. O. COYE,
Clerk, Privy Council.
By forty-fourth Victoria, chapter seventeen being "An Act to amend the Indian Act 1880, sections two and three, it is provided that—

"2. Any person who buys or otherwise acquires from any such Indian, or band, or irregular band of Indians, contrary to any provision or regulations made by the Governor in Council under this Act, is guilty of an offence, and is punishable, upon summary conviction, by fine not exceeding one hundred dollars, by imprisonment for a period not exceeding three months, in his place of confinement, or by both fine and imprisonment, or by both fine and root crops or other produce, as aforesaid, be lawfully in the possession of any persons, within the intent and meaning of this Act, and of any provision or regulations made by the Governor in Council under this Act, any persons acting under the authority, either general or special, of the Superintendent General of Indian Affairs, with such assistance in that behalf as he may think necessary, and shall take possession, as the Superintendent General, or any officer or person authorized by him, may direct.

ITEMS OF INTEREST

From our Exchanges.

Crop Reports.

The provincial crop bulletin for Oct. represents the average wheat yield as 23 bushels to the acre, and the average oat yield 44 bushels to the acre.—Winnipeg Sun. [We can beat that in the District of Lorne. When the returns are in we will publish the figures.]

North West Appointments.

Mr. Rouleau, of Aylmer, P. Q., is the latest Eastern Canada lawyer to receive an appointment in the North West. Sir John appears to have a pretty small opinion of the capabilities of the members of the Manitoba bar.—Winnipeg Sun. [We presume this is the newly appointed Judge for this District, in the place of Col. Richardson, transferred to Regina, although there has been no official information received of the appointment as far as we know.]

Emigration Literature.

The C. P. R. Company have been distributing some emigration literature in the Atlantic. Some idea of the work in which they are engaged will be gleaned from the title page of one of their pamphlets. It is as follows:—"Dachian-Saens do m. h. Ute. am am Manitoba agas Canada an farthouth, air Routh Rathsiaonin Chanda Pacific. Inbirtin:—Air a chohloothah sig tigh oir and a Northern Chronicle, 1883." [We commend the above to the careful attention of our newly formed St. Andrew's Society.]

Representative Government.

The Regina Leader wants to know why the North West Territories are not represented in the Dominion Parliament. The question is a very pertinent one. The Territories have the next thing to a local legislature of their own, and if they have machinery for selecting representatives for their territorial council, there can be no excuse for keeping their voice out of the council of the nation. If we have a representative government, then their is a positive wrong done to every man who is disfranchised. Here is a golden opportunity for the Conservative Government to give a modicum of justice to the great North West. [We cordially endorse the above from the Winnipeg Sun. The Territories are heavily taxed for the support of the Dominion Government, and we receive no return whatever, except a batch of officials from Ontario and Quebec to fill North West appointments. By all means let us abolish the North West Council, and have local Legislative and representation in the Dominion Parliament, and that quickly. Until then, we fear our grievances will be increased and our wants unsatisfied.]

PROSPECTUS

OF THE

Prince Albert Directory

AND

BUSINESS GUIDE.

It is proposed to issue a Business Directory for the town of Prince Albert and District of Lorne in a pamphlet form which will contain the advertisements of each business establishment, (to be inserted at a moderate rate) and a descriptive notice of each.

The volume will contain a history of Prince Albert, its present condition and future prospects, together with a state most of this year's crops, as far as they can be ascertained for the District of Lorne, extent of acreage cultivated, number of bushels per acre, increase over last year's crop, population of District, and other useful information, written by a well-known journalist.

About 500 or more copies will be published (according to the encouragement received) which will be distributed throughout the Dominion and the Mother Country.

It is hoped that by this means, benefit will result, not only to each individual advertiser and subscriber, but that the whole country will become better known and appreciated both at home and abroad and a healthy emigration encouraged to this country.

Price of advertisement, whole page, with notice on opposite page, \$10; two copies given free. Single copies, 50 cts.

Mann, the Little Bideau murderer, who killed Mr. and Mrs. Cooke, and a son and daughter, was hung on Oct. 12. He said at the last moment, "It is a capital shop step and jump from a sinful world into an eternity of love."

J. L. JOHNSON & CO.

FALL POETRY.

Time turns and the winds are high,
Dark clouds hang on the wintry sky,
The pedestrian feels the chilling blast,
Old leavy winter is coming fast.
He shivers, for he had not thought
An winter coat he should have bought,
When passing by the Horse Shoe Store,
He saw them hanging in the door.
My Tweeds they are the very best
That you can find in the North West;
'Tis cheap for cash, our goods are low,
It makes quick sales, our goods they go.

I choose rather to sell my goods than to keep them lying on the shelves.
Quick sales and small profits. Keep up with the times is my motto. I will sell at any price that beats the public estimation of a government official or the finances of an ex-politician. Give me a call and examine my stock of

Five Scotch Underclothing, Merino and Lambrequin Hosiery,
Ladies' and Gent's Merino, Buck, and Kid gloves and Mitts, Ladies' and Gent's Fur Caps, Ladies' Sets, Socks, Hosiery, Sashes, Cloaks, Squares, Ulsters, women's Water Suits, Boots, Shoes, Morossins, Gaiters, Patent Medicines, etc., etc.

Farmers' produce taken in exchange for goods, and always on hand.

COMMUNICATIONS.

OUR MEMBER.

To the Editor of the Times.

Sir,—In the last issue of your paper I noticed some strictures on the way in which our member has performed his duty to his constituents. I do not write to defend Mr. Macdowell, that gentleman will, I feel certain on his return, be able to give a satisfactory account of himself and the work accomplished by him as our representative. But as there appears to be misapprehension with reference to the North West Municipal Act, I would explain that there was a general act passed by the Council, under which municipalities, town and cities can be incorporated, but there was no special legislation, and our member opposed strongly a special act for the incorporation of Regina, which got a six months' hold.

L. CLARKE.

REMOVING BOULDERS.

To the Editor of the Times.

Sir,—In late issues of the Ontario press I notice a growing feeling in favor of instructions being issued to government employees whose time is not otherwise fully occupied instructing them to spend their spare time cutting Canadian thistles and other noxious weeds. We have neither thistles or other noxious weeds in Prince Albert but we have a super-abundant supply of government officials with spare time. Might not such time be utilized to advantage in removing boulders from the River Saskatchewan. Such exercise would be quite as conducive to health as the handling of cordwood in the "stilly hours" and would release these gentlemen from the very unsavory position of sinecure. Hoping that our builders may find themselves in possession of a good supply of building stone.

RUSTIC.

A BURNING SHAME.

To the Editor of the Times.

Sir,—It seems to me that the people of Prince Albert have been asleep for some years, as regards looking after the amount of timber that can ever fall to their lot, even by using all known Yankee devices to make water run up hill. Of course many will say let those who are interested in lumber do it. Now in my opinion, every man, either trader, merchant or farmer, is as much interested as the lumber man, and all should combine to use every endeavor to impress upon the minds of those working for them, the great damage that would be done, if through any chance such a fire should sweep across the country to the north of Prince Albert as swept over it some fifteen to twenty years ago. That same fire destroyed more timber than would house half a dozen railroads and would have been a placement enough to make any road lay here to get it. As it now is there is enough timber for many years if great care is used as regards fire. But otherwise it is bound to go, which would do more harm than waiting another ten years for a railroad. I have gone to the expense of at least \$100, with loss of time of self and men, to have one of our noble red men up before one of Her Majesty's Justices of the Peace, said Indian admitted his guilt and was let off with a sharp warning. The warning may have as good an effect as a more severe sentence. But time will show. I will consider my money well spent if it makes the people wake up to the importance of the timber limit.

J. W. ANSTLEY.

THE QUAPPELLE MURDER.

To the Editor of the Times.

Sir,—The Half-Breed population of this country will pause with indignation the report of the McCarthy murder trial in the Regina Leader of October 11. In referring to the moment when the jury were entering the court, this exponent of Canadian civilization says:—"Anxiety was plainly depicted on the faces of some of the participants in the drama, one of the acts of which was nearing its close, and although only the lives of a couple of Half-Breeds were at stake, there was a solemn and painful hush." Are Half-Breeds less sacred than Canadian or even Irish lives? As it is well known there has been only one murder case at Regina, still in the next column the same paper states under the heading of "Town Talk." During a recent trial for murder one of the associate judges said he begged to vary the proceedings by singing "The Bridge" on proposing to repeat the performance the Court emptied at once and the prisoners retreated to be held forth without

the formality of a trial." Is this the way for a newly hatched Queen's printer to write? but perhaps it is only the disregard of human life, unfortunately characteristic of the Irish race. As he says the verdict will be discussed in many a wigwag of the Indian and Half-Breed, and the discussion will not tend to increase the respect both races have for the administration of justice, and will confirm many of them in their opinion, that the editor of the Regina Leader has as little regard for decency as he has for the liquor law and which to suppose he was trifling again, at the time he penned the above statement, would be his best apology.

HALF-BREED.

ROYAL BAKING POWDER

ABSOLUTELY PURE.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low tests, short weight, alum or phosphate powders. Sold only in tins.

MANTOBA WEEKLY FREE PRESS.

THE MONARCH OF THE WEEKLIES.

THE LARGEST PAPER IN CANADA!

THREE MONTHS FREE.

Three Handsome Cash Prizes

\$500-\$200-\$100.

THE MANTOBA WEEKLY FREE PRESS is just entering upon its Twelfth Year of publication. It has therefore been identified with the best interests of the province from the time it became a part of the Dominion.

During the whole of this period it has been an uncompromising advocate and defender of Northern interests. Whatever was conducive to the welfare of the country, that the Free Press has supported, whatever was inimical thereto, that the Free Press has opposed, regardless of personal or party consequences.

In this respect the Free Press will be in the future the same as in the past. With every successive year improvements are introduced, wherever possible.

The editorial articles of the Free Press are universally admitted to be models of excellence. As a newspaper the Free Press is now in the very forefront.

The editorial articles of the Free Press are now in the very forefront. The gathering and compilation of which are employed a strong office staff and a perfect array of special messengers, train-riding correspondents.

The Free Press, through a liberal expenditure of money, has certain exclusive rights and privileges for securing telegraphic news from other parts of Canada, the United States and the world generally, that enable it to present a better and fuller account of news than any other paper in the Northwest, and a week earlier than can be had through any outside paper.

The Commercial Department is a strong feature of the Free Press, being one of the very best conducted by any newspaper in the world. It does the almost and tired task and attention of a writer, especially qualified for the work. All therein contained may be confidently accepted as the result of careful and reliable information upon all Business Matters. Particular care is bestowed upon FARM PRODUCE QUOTATIONS, a bona fide Home and Outside Markets. Those from the latter are received by wire immediately before going to press.

The Provincial Legislature is reported by expert shorthand writers; and during the session of the Dominion Parliament the Free Press is continuously represented by one of its regular staff in the House of Commons, where duty is to forward accurate reports of proceedings than any other paper in Canada.

The Manticlary is so well known to the widest possible circle the aim being to supply need matter that shall interest every member of the household, and satisfy the reader.

THE MONARCH OF THE WEEKLIES is a designation to which the MANTOBA FREE PRESS is justly entitled, as it is a fact and contains more matter than any other paper published in Canada.

THE FREE PRESS CIRCULATION, however, is the immediate ambition of the publishers of the Free Press.

As the Free Press is an independent paper, therefore, presented to become subscribers. While the regular subscription price of the Free Press is \$2.50 per annum; and good value for each dollar paid for the subscription, the publisher will, for 6 per cent discount, make it made, that is, \$2.30 for one year.
